Modern flat logo for an app called Scholar Buddy AI. A robot emoji with a rolled-up diploma. The background is yellow, fading into light blue and green at the border.

Create an image of a high school student using a studying app on their smartphone while sitting down on a desk with a notebook and flash cards for studying. Clean digital illustration, with a yellow background and a warm atmosphere.

Now make me a different image. This image should show the study app interference with a search bar at the bottom, menu and calendar icon adjacent to each other on the top left corner, settings icon on the top right corner, and in the bottom right hand corner a icon to talk to the AI. The app is called Scholar Buddy AI

Now make me an image where a student is having a conversation with the AI, asking the Ai to help the student study for their exam.
